Xion Connect

DATA SHEET

One inbox for every conversation.

XionConnect: omnichannel messaging for your team

XionConnect brings WhatsApp, Instagram, Facebook Messenger and more into a single intelligent inbox, with automation, analytics and AI-driven engagement built in. It works with XionERP.

CHANNELS IN ONE SHARED TEAM INBOX

WhatsApp Business | Instagram DMs | Facebook Messenger | Telegram | Email | SMS

Shared team inbox

Every channel answered from one place, so no chat is lost between phones.

Automation

Take care of routine replies and routing so your team focuses on the conversations that matter.

Analytics and AI

See how conversations are handled and use AI-driven engagement to respond faster.

Works with XionERP

Use XionConnect on its own, or alongside XionERP so customer conversations sit next to the invoices, quotations and statements behind them.
