XionERP

Cloud ERP built for GCC businesses.

Accounting, sales, inventory, CRM, manufacturing, HR and e-invoicing in one platform, so your numbers, stock and customers finally agree.

One platform

From quote to cash to ledger. Sales reduce stock and post cost automatically.

Compliant by default

GCC e-invoicing built in: Fawtara / UBL 2.1, OMR to three decimals, multi-currency, IFRS reporting.

Live visibility

Dashboards for cash, profit, receivables and aging, always in step with the ledger.

EVERYTHING IN ONE PLACE

Accounting · Banking & Cash · CRM · Sales · Purchase · Inventory · Warehouse & Delivery · Assets · Project Management · Analytics Center · Reports · Human Resources · Maintenance · Field Sales · Point of Sale · Manufacturing · WhatsApp · Claude AI · Xion Webstore

Your own Claude, WhatsApp and online shop, inside your ERP.

Send invoices and reminders on WhatsApp, ask Claude about overdue receivables and stock, and run an online shop on the prices and stock you already keep in XionERP.
